EXERCISE 3

(10x1=10 marks)

You will hear a broadcast about going to bed early.
Listen and complete the missing information. Use only **ONE** word or number for each gap.

Going to bed early is better for us

The phrase “the early bird catches the worm” suggests that people who wake up early get **1.** _____ done than people who don't.

The former U.S. President Benjamin Franklin said, “early to bed, early to rise makes a man **2.** _____, wealthy, and wise.”

Scientists have found that people who go to bed early may do **3.** _____ in life than people who sleep late. Their research showed that people who slept and rose early, early birds, had a(n) **4.** _____ over people who slept and woke up late, night owls. There were differences in the brain function of early birds and night owls.

The scientists tested **5.** _____ people in their research. They answered questionnaires about their **6.** _____ pattern and when they felt tired during the day. Then, according to their answers, they were divided into two groups, early birds or night owls. They all had MRI scans on their brain and did **7.** _____ tests throughout the day. The early birds said they felt less sleepy and were able to do the tests **8.** _____ than the night owls.

The researchers concluded that there were big differences **9.** _____ the two groups. They said that “night owls during school have to get up earlier, then they go into work and they have to get up earlier, so they're constantly having to fight against their **10.** _____ and natural rhythms.”
