## PROCEDURE

### **ACTIVITY 1 – INTRODUCTION**

Brainstorming: Teacher informs students that she is going to show them three pictures very quickly and they should try and figure out what they are. She elicits answers until the students give the word 'menu'. She then asks them "where can we find a menu?" Students give various answers and then she asks them why menus are used. – 3 minutes

**ACTIVITY 2:** The teacher informs/repeats that menus are used to order meals and then asks students to mention the parts of a meal. The teacher informs students that the labels of the parts of a meal are missing from the menu they have (handout exercise 1) and they are asked to fill in the blanks and then they report back to her with the answers. She then asks students what they would like to try from this menu and whether they can order pizza from this restaurant. – 5 minutes

**ACTIVITY 3:** The teacher informs the students that they are going to watch a video of two people at a restaurant ordering food. She explains that while they are watching they should put a tick under the food item each person is going to have (handout, exercise 2a). Students watch the video and then they report their answers to the teacher. The teacher then asks the students to give the answer to question 2b – *The man and the woman have ...* . What can you say about the food they order? Is it healthy/unhealthy? Would you choose the fruit salad for dessert or would you prefer something else? – 8 minutes

**ACTIVITY 4:** Students are given some mixed up speech bubbles and are asked to match them with the waiter or the customer. (handout, exercise 3) Students report their answers – 5 minutes

**ACTIVITY 5:** Role Play: The teacher informs students that in pairs they will take up the role of either the waiter or the customer and order food /take a food order from the menu provided. Students are also given a useful language box that can consult while doing the activity. Then they switch roles and the customer becomes the waiter and vice-versa. – 10 minutes

### **ACTIVITY 6 – CLOSURE / QUICK REVIEW.**

The teacher gives exit cards to the students and asks them to write down a phrase a waiter would use, a phrase a customer would use and answer the question whether they believe they can order food in an English speaking restaurant. – 4 minutes
